

RUSSIA'S NEW RULER
Joseph Stalin, now the dominant
factor in Russian politics, has aban-
doned the slogan of "World Revo-
lution" and has decided to slow
down Communist propaganda
abroad. For the present at least, he
is said to be in complete control of
Soviet Russia.

Tenders for Position of Ice Man

Tenders will be received by the undersigned for the position of ice-maker and caretaker for the Coleman Crystal Rink for the 1926-27 season, stating qualifications and salary expected. Applications must be received no later than Thursday, November 25th, 1926.

Coleman Crystal Rink, Ltd.
R. F. Barnes, Secretary.

Local and General Briefs.

It is reported locally that two more of Coleman's junior hockey talent are to seek pastures new. Johnny Ferko and Mickey Brennan are to be seen in Ponoka hockey uniforms this winter if Dame Rumar is correct.

Mrs. H. C. McBurney, 5th street, entertained a number of lady friends to a delightful bridge party at her home on Wednesday evening.

A. Booth, Stall 8, City Hall Market, Calgary, is again offering some splendid bargains in meat. Read his advertisement on page 8. The prices as advertised are good until the end of November.

Sale of Work

The Ladies Aid of St. Paul's United Church are arranging to hold their regular Christmas sale on the afternoon of Saturday, November 27th. They have tried to select a date that would not conflict with the plans of any other organization. Gifts and donations will be gladly accepted and the patronage of all interested will be appreciated. Detailed announcements will be made next week.

The meeting of the Women's Institute will be held at the home of Mrs. Arthur Graham on November 23rd. As this is the Annual meeting a larger attendance is particularly desired. Roll call will be answered by members individually repeating the Women's Institute creed.

A garage to house the Rev. Mr. Bevan's car was built last week between the Manse and the Club rooms by contractor W. Johnson.

Mr. W. Johnson returned from a successful big game hunt about thirty miles north west of town last week. He reports deer fairly plentiful in the north, but sheep and goats scarce, although his party were successful in securing a fine sheep.

Mr. A. M. Densmore, of Lundbrook, was a visitor in Coleman on Monday of this week.

C. G. I. T. Conference Held At Blairmore

One hundred and thirty-five girls and leaders assembled at the Union Church, Blairmore, from Bellevue, Hillorest, Coleman and Blairmore, on Saturday, November 13th, to attend the C. G. I. T. conference.

The theme of the conference was "Trails That Are in a Girl's Life." Miss Hetherington spoke on "Trails" and emphasized the importance of the C. G. I. T. fourfold life.

At 6 p. m. the girls gathered in the I. O. O. F. hall and sat down to tables overflowing with delicacies.

After the banquet speeches were made by: Miss Christopher, "Four Points"; Miss E. Goodwin, "Strangers on the Road"; Miss C. Allan, "The Fork in the Road," and Miss Reid, "Beckoning Peak."

Songs and dramas then followed. Miss Hetherington closed with a talk about "Standards in a Girl's Life."

The Resolution Committee presents the following report:

1. That we should thank the Board of the Blairmore Church for the use of their building for the conference session.
2. That we thank the Ladies Aid for the banquet which they prepared for us.
3. That we thank the ladies who opened their homes and provided lunch for the delegates.
4. That we thank Rev. Mr. Young and all those speakers who gave such fine inspiration.
5. That we thank those people who provided cars for bringing the girls to and from the conference.

Signed:

D. M. Burrows, Secretary.
E. M. Fisher, President.

Crow's Nest Bonspiei At Cranbrook, Jan. 17th

Taking up the matter of the Crow's Nest Bonspiei, a subject productive of some discussion, it was decided that, weather permitting, the big competition will open at Cranbrook on Jan. 17. The secretary was instructed to notify the B. C. and Selkirk Curling Association to that effect. To ensure a requisite number of ice sheets for the playing off of the teams the House and Finance committee were instructed to secure Arena Rink during Bonspiei week and also take steps towards improving lighting conditions in the curling rink.—Cranbrook Courier.

Have We Forgotten?

It is regrettable that the citizens of Coleman in general, the Canadian Legion and civic heads in particular, displayed so little interest in fittingly observing the 8th anniversary of Armistice Day on Thursday of last week. True, the school teachers did their part in impressing on the children the solemnity of the occasion, but the adult portion of our population who gave any outward expression of remembrance consisted of three people, who marched to the local cemetery with wreaths.

Undoubtedly a number of residents observed the day in the quiet of their homes or places of business, nevertheless if this great epoch making event is to be kept green in the memory of the nation, it is necessary to make some public demonstration of the fact each anniversary. Leadership in this is rightly to be expected from civic heads, returned men's organizations, churches, and other civic bodies.

Does Publicity Pay?

Last week a local merchant paid The Journal less than twenty dollars for producing some publicity matter advertising goods he desired to sell. Bargain hunters in Coleman pushed across his counter over one thousand dollars in cash for these goods. Again we ask, Does Publicity Pay?

Swimming Pool Whist Drive and Dance, Dec. 3

A whist drive and dance will be held in the Opera House, Coleman on Friday evening, December 3rd in aid of the Coleman Community Swimming Pool. Turkeys and chickens will be given for 1st and 2nd prizes at cards. Admission, 50c for cards, dancing, gentlemen, 50c and ladies 25c.

SUBMITTED MINORITY REPORT
David Campbell, K.C., of Winnipeg, who represented trainmen and conductors on the conciliation board, and recommended a six per cent increase. The majority report was unfavorable to this and a strike on both the big Canadian railways is within the bounds of possibility.

Two Hundred Attend Elks First Annual Ball

The local Opera House was the scene of a bright and merry gathering last Friday evening, when Coleman Lodge, B. P. O. Elks gave their first annual ball. The bare interior of the building was tastefully decorated with purple and white streamers, Elk emblems and special lighting effects, and this together with the colorful and dainty costumes worn by the ladies, made a very pleasing picture.

The affair was largely attended by local people and many out of town guests were in attendance. A "mock arrest," in which Mr. H. McMillan, of Cwley, was the culprit, a charleston exhibition by a member of the Blendwell Orchestra of Pincher Creek, were two special features that were very much enjoyed.

Praises Alberta Phone System

Alberta's telephone system is not only considered one of the most up-to-date telephone systems in Canada, but its management is held up as a model for other systems all over the Dominion, in the opinion of experts of this particular line of business, stated M. K. Pike, general sales manager for the Northern Electric Company of Montreal.

Loyal Order of Moose Have Fine Home Here

The Loyal Order of Moose, Coleman's youngest fraternal order, have every reason to be proud of their splendid lodge quarters in the Knowles building on Central Ave. During the past few weeks this building has been undergoing extensive alterations and now presents a very pleasing appearance both as to exterior and interior.

Commodious ante-rooms have been made at the front, a new floor and ceiling put in, and a large kitchen added to the rear of the building which now measures 70 x 25 feet. The main lodge room is 51 x 25 feet in the clear and is artistically decorated throughout and exudes a very comfortable and homelike atmosphere. The lighting and ventilating systems have received expert attention, while the heating and seating arrangements leave nothing to be desired.

The new Moose hall will no doubt prove a very popular centre for dances, lectures, and kindred gatherings as well as making a splendid home for the L. O. M.

A Treat For Colemanites Popular Violinist to Stage a Grand Concert at Coleman

The above concert under the supervision of William J. Harris, will be held at the Grand Theatre on January 3rd, 1927, and will likely be the first of a series to be given during the coming winter throughout the Pass. The program will be of the best and a good variety is assured. It will include Miss Enid B. Cole, dramatic artist, of Bellevue, who has met with much success since her introduction to the Pass. A large Stringed Orchestra, which will play some of the favorite Overtures, conducted by the above violinist, will prove another attractive item, especially when it consists of many Coleman artists, some, who until now were not known amongst the talented. The program is much too long to give it in detail here, but a few words about the feature that all Coleman should support, and be proud of on that night is necessary. It will introduce the youngest of Coleman's musicians ranging in age from seven to fourteen, who will play selections as a Junior Orchestra, and some of this same orchestra will show their ability as soloists.

It also introduces a capable Guitarist and some of the foremost Mandolinists in the Pass. Now Colemanites here is your chance to enjoy a very pleasant evening and by doing so you will support your home talent, encourage your young musicians, and foster a love of good music in all your homes.

A Boost in Canada's Trade

The latest figures relating to the trade of Canada make the best possible reading: They show that our total trade during the twelve months ending in September amounted to no less than \$2,304,000,000, an increase of \$281,000,000 over the preceding twelve months, and comprising with a total trade of \$1,912,000,000 for the twelve months up to the end of September, 1924.

The export of automobiles has gone up in the past year. During the past twelve months the number of automobiles shipped from the Dominion increased from 64,000 to 76,000.

An optimist is a tourist who starts out with poor brakes, no spare, a knock in the motor, and who wins 250 miles ahead for hotel reservations.

Wedding Bells

POLLACK-KWASNEY
A wedding of more than ordinary interest to local people was solemnized at the Holy Ghost church on Monday of this week at 10:30 a. m. when Miss Mary Kwasney, eldest daughter of Mr. and Mrs. J. Kwasney, West Coleman, became the bride of Mr. Brenek Pollack, also of Coleman. The ceremony was performed by the Rev. Father McCormick in the presence of a large number of relatives and friends of the young couple and was followed by nuptial high mass Mr. John Kwasney, brother of the bride, assisted the groom, while Mrs. J. Michalsky was bridesmaid. After service in the church was concluded the young couple and guests adjourned to the home of the bride's parents where a sumptuous wedding breakfast was waiting. Mr. and Mrs. Pollack will reside in West Coleman, and have the best wishes of many friends for a happy married life.

ZUR-CIURLA
A quiet wedding was solemnized on Monday morning at 10 a. m. at the Roman Catholic Church, Coleman, when Miss Aniela Ciurla became the bride of Mr. Andrew Zur. Rev. Father McCormick officiated. Mr. Martin Biqun of Blairmore, was groomsmen, and Miss Annie Mizera of Coleman, bridesmaid. Mr. and Mrs. Zur will take up residence in East Coleman.

HEAL-RAYKO
Mr. F. G. Heal, son of Mr. G. Heal, of Maycroft, and Miss Mary Rayko, eldest daughter of Mr. and Mrs. Rayko, of Passburg, were united in marriage at Blairmore on Monday morning of this week. Rev. W. T. Young officiated.

"So This Is Canada," at the Blairmore Opera House Fri.

"So This Is Canada," the world's funniest show, is playing in the Blairmore Opera House tomorrow (Friday night).

64,000 Autos in Province

The number of autos licensed in Alberta for 1926, totalled 64,000 to the first of November, according to figures given by the Deputy Provincial Secretary, E. Townbridge. This adds 11,000 to the total of last year.

Population of Alberta Cities

The figures of the recent federal census for the cities of Edmonton and Calgary have been announced as follows: Edmonton 64,740, last census 58,821. Calgary 64,905, last census 68,305.

Our value to the community is measured by our services, and in the long run our reward is apt to be in proportion to that service.

Self satisfaction is a treacherous chair with three cracked legs.

Coleman Curlers are beginning to feel the call of "stone and beam," and wandering when the organization meeting is to be held. It is likely this gathering will be called within the next week or so.

Dr. Alexander, physician, surgeon and psychoanalyst, commenced a series of lectures in the K. of P. hall on Tuesday evening and will continue nightly until the end of the week.

A directors meeting of the Coleman Crystal Rink, Ltd., is taking place on Thursday evening of this week.

THE ALLAN CUP
The next Allan Cup Finals will be played at Vancouver, as a result of the decision of the Canadian Amateur Hockey Association at its meeting in Port Arthur. More than that, \$5,000 has been appropriated to send the winners as the representative Canadian team, to the Olympic games to be held in Holland.

Boy Hurt Stealing Ride

A little West Coleman boy received cuts and bruises and was badly shaken up Tuesday noon, when he fell off the Scott Fruit Co. truck near Central school. Constable Houghton picked the little fellow up and had the driver take him home where his injuries were attended to. This should be a warning to many Coleman boys who are in the habit of stealing a ride on major vehicles or wagons.

Local and General Briefs.

The Victoria Reb-kah Lodge, No. 7, will hold a special meeting in the I. O. O. F. hall on Friday evening, November 19th, at 7:30 p. m. Important business. All members are urgently requested to attend.

Brother "Bills" of the local Elk Lodge who fail to attend lodge on Friday evening of this week will miss one of the most pleasant entertainments of the season, as a splendid program has been arranged for the "Smoker."

The Home League of the Salvation Army held a very successful sale on Saturday last and raised the net sum of \$95.00. This amount will be used for furnishings for the hall and quarters. The Home League members wish to thank everyone who helped to make the sale such a success.

Mr. J. G. McLean, of Nanton, spent Thanksgiving in Coleman the guest of his son, Mr. D. E. McLean, 6th street.

The Italian Government has declared by proclamation of 9th September last that notes issued by the denomination of 25 00 Lire will cease to have legal course on 31st December, 1926, and will be declared worthless on the 30th June, 1927.

Remember the concert in the Grand Theatre Friday night given under the auspices of the W. A. of St. Alban's church.

Read A. Booth's advertisement on the back page for special prices on meat. The prices as advertised are good until the end of November.

The Macons and families, and members of the Eastern Star and families, are cordially invited to a whist drive and dance to be held in their hall on Thursday evening, November 25th, commencing at 8 p. m.

CHANGES MADE IN PERSONNEL OF CUSTOMS PROBE

Ottawa.—Sir Francis Lemieux has tendered his resignation as chairman of the royal commission investigating the administration of the department of customs and excise. He is replaced as chairman by Chief Justice Brown of Saskatchewan, senior member of the commission. Judge Ernest Roy, of Quebec, has been appointed to be a member of the commission.

These are the outstanding features of a statement issued by Hon. J. A. Robb, acting prime minister, at the conclusion of a meeting of the cabinet. The statement announces the opening date of the resumed sittings at Ottawa on Wednesday, November 17.

The full statement follows: "It is expected that the customs inquiry commission will open its sittings in Ottawa, Wednesday, November 17.

Unimpeachable Sir Francis Lemieux, chief justice of the Superior Court of the province of Quebec, has tendered his resignation as chairman of the commission, on account of the great pressure of his judicial duties and also the fatigue involved for a man of his advanced years in the long journeys and arduous work of the commission.

"In spite of the Government's desire to retain him, Sir Francis has agreed to his first resignation. The Government has requested Chief Justice Brown of Saskatchewan, senior member of the commission, to become chairman. Sir Francis Lemieux was asked to name a successor as member of the customs inquiry commission and he has suggested the name of Judge Ernest Roy of Quebec City, who has been appointed today."

After a few days at Ottawa, where it is expected to open November 17, the commission will travel to Vancouver and work back from the coast city, probably reaching Winnipeg by Christmas.

Discovers Deposit Of Semi-Precious Gems

Find Near Winnipeg May Be Commercially Valuable

Winnipeg.—J. H. J. MacPhail, a geologist, has discovered a deposit of semi-precious gems worth, when cut, from \$5 to \$20 a carat, has been found in the pegmatites of the Bird River only 100 miles from Winnipeg.

Two claims, comprising 104 acres, have been staked by the discoverer, Kenneth Hillier, Winnipeg. He reports 25 to 30 outcrops over a length of one-half mile. The width of the area in which the crystals occur is about 1,000 feet, and within this there are often lenses widening to 100 feet in which numerous fractured crystals can be seen even on the surface.

Will Visit Canada

London.—When the Imperial Conference closes, Canada will have an opportunity of seeing some of the delegates to the conference from the Antipodes. Premier J. G. Coates of New Zealand, plans to return home via Canada, as do some of the Australians, although it is doubtful if Premier Bruce personally will be able to visit Canada.

Reduce French Army

Paris.—Reduction of the total number of men under arms in France from 550,000 to 400,000 is called for in three bills which will be introduced in the Chamber of Deputies on the opening of Parliament. The measures also call for a reduction in the period of compulsory military service from 18 to 2 months.

Canada's Imperial Problem

Montreal.—Canada's imperial problem would be largely solved by the appointment of a political representative of the government in London, England, in the opinion of Prof. J. H. Corbett, formerly in the legal service of the League of Nations, who is now a lecturer in Roman and International law at McGill University.

Left Books to Library

New York.—Harry Houdini, the magician, left his huge collection of books on magic, spiritualism, witchcraft and demology, said to be worth \$500,000, to the New York Public Library. The first of the books is the belief of Leo Houdini, his lawyer, who drew up Houdini's will two years ago.

England's First Woman Sheriff

Southern England.—The first woman ever to be appointed a sheriff in England has been chosen here. She is Mrs. Lucia Welch. The new appointment will be forced to attend any execution which may occur during her tenure of office.

W. N. U. 1655

More Mennonite Settlers For Canada

Thousands Coming From Southern Russia Says Bishop Towse

Winnipeg.—Canada is being seen more and more as a land of opportunity by the Mennonites, and before the end of the present year nearly 7,000 new settlers from Southern Russia will have made their homes in the Dominion, according to Bishop Towse, president of the Mennonite Colonization Board.

To date 2,500 Mennonites have settled in Canada and are well established and happy in their adopted country, Bishop Towse said.

The movement of Mennonite settlers to Canada in 1927 will even surpass that of the present year, he added, although definite arrangements have not yet been made. Those who come late this year will suffer no inconvenience in the matter of getting settled. They will spend the winter with their countrymen in their settlements, and in the spring will get lands for themselves.

Bishop Towse intimated the Mennonites saw no attraction in Mexico now.

New Polar Expedition

Dr. Hansen, Contemplates Voyage of Discovery By Airplane

Reith.—Plans for a new polar expedition by airplane on strictly scientific lines were set forth by Dr. Fridtjof Hansen, president of the International Society for the Exploration of Arctic Regions, at the opening of the international congress of that body today.

Dr. Hansen contemplates flights, with numerous stops, from Nome, Alaska, by way of the North Pole to Murmansk, Russia or in the opposite direction. The ship will be manned by a crew of 50, the march to work in three shifts.

Dr. Hansen declares that the flights of Byrd and Amundsen over the North Pole were great pioneer deeds, but from the viewpoint of Arctic exploration, merely preliminary to detailed scientific investigations, hence lasting for hours.

Appointment Is Confirmed

Hon. Vincent Massey Is Officially Appointed Member to Washington

Ottawa.—Hon. Vincent Massey was appointed Canadian minister to Washington by the cabinet. The announcement was made by Hon. J. A. Robb, acting prime minister, to a group of newspapermen. Mr. Massey is in England with the premier, who is attending the Imperial Conference in an unofficial capacity.

Leaving Earthquake Area

Sufferers Looking for Safer Place to Rebuild Homes

Leningrad, Armenia.—Sufferers of their ability to rebuild their homes have left for more promising parts of the Caucasus. Earth shocks of moderate intensity have continued for a week past. The authorities fear that if they persist the city shortly will be entirely deserted. With the advent of cold weather, the people are suffering bitterly, having lost everything they possessed.

Prince George to Come to Canada

Ottawa.—Prince George, fourth son of His Majesty the King, is expected in Ottawa on December 4. It was learned here today. While in the capital His Royal Highness will be a guest at Government House. Prince George has been serving as a sub-lieutenant in the Royal Navy in Chinese waters. Arrangements are being made for the Prince to cross Canada in a private car.

To Strengthen Act

Winnipeg.—Corrective legislation embodying retroactive provisions to bolster up the Manitoba Rural Credit Act is under consideration by the provincial government. This move is being taken as the result of a judgment in Court of Appeal here against the Rural Credit Society.

Military Training Compulsory

Montreal.—Military training for all university students, both men and women, has been ordered by the commander in chief. All students will be required to take 150 hours of instruction in military service during their regular four-year course.

May Visit Canada Next Year

London.—Although it has not yet been officially announced, it is understood that the Prince of Wales, probably will visit Canada for the Diamond Jubilee celebration next year.

Canada's Death Rate Falling

People Living Longer Because Statistical Information Is Available

Ottawa.—Canada's fighting disease with figures. Experts say they are winning. That the death rate among infants and from cancer and tuberculosis is being gradually reduced. The Dominion now has a uniform system of vital statistics.

"Until quite recently each province had a different system. New Brunswick had no system at all and no vital statistics were compiled except by the cities of St. John, Moncton and Fredericton. In Quebec the records were kept by the churches. Roman Catholic and Protestant. This had been the method for 300 years. And the civil authorities were loathe to meddle. Quebec has now joined the other provinces, and will have the best statistics in Canada."

People are living longer because statistical information is available, which shows the doctors precisely what they have to combat. Mr. Coates, Dominion statistician, is assisted in this department by E. S. MacPhail, superintendent of compilation, and W. R. Tracey, who recently made a trip by way of the health sections of the League of Nations, to Geneva, Berlin, The Hague, Paris and British cities for the purpose of studying the collection of vital statistics in those centres.

PARLIAMENT TO ASSEMBLE ON DECEMBER NINTH

Ottawa.—Parliament will be opened on December 9, Hon. J. A. Robb, acting prime minister, announced at the conclusion of a meeting of the cabinet. After the formal opening, the Commons will proceed to the election of a speaker on Friday, December 10. There will be an adjournment until Monday, December 12.

"The Government hopes," said Mr. Robb, "that with the cooperation of the official opposition, the speech from the throne can be disposed of in one day. Then the estimates and supplementary estimates will be taken up just as they were left last year."

Mr. Robb expressed the hope that considerable business could be accomplished before the Christmas adjournment. After the adjournment, it is unlikely that Parliament will assemble before the end of January. Premier King and Hon. Ernest Lapointe will sail from England on December 1 and will be present for the opening. As the part of the reason which comes before Christmas will be largely taken up with the speech from the throne and the estimates, the actual details of the session on legislative program will not have to be dealt with by the cabinet while the Prime Minister and the Minister of Justice are absent. It is understood, however, that Mr. King and Mr. Lapointe have been in close touch with Ottawa by cable from day to day and are fully informed regarding the work of the cabinet.

From Government House comes the announcement that the state dinner and reception which traditionally accompanies the opening of Parliament, ceremonies will be held on the evening of Friday, December 10. Owing to the early part of the session being of such short duration, Their Excellencies the Governor-General and Vicecountess Willingdon will hold the Drawing Room early in January.

Fewer Deaths From Tuberculosis

Ottawa.—Canada has reduced its tuberculosis deaths since 1900 from 180 per 100,000 population to less than 80 per 100,000. This shows a reduction of more than 100 deaths per 100,000 people per year accomplished in the last 25 years, or a saving of one death from the disease annually in every 1,000 people or 9,352 lives per year.

Canadian Course Lures Hagen

Langara Golf Course Club House. (Inset) Walter Hagen.

Walter Hagen, former British Open Golf Champion and winner for three years of the Professional Golf Association trophy, will soon be seen in action on the Canadian Pacific Railway Company's new course, Langara, situated at South Vancouver, Par for the course is 72 and Hagen is looking forward keenly to lowering the par figures. The Langara course, which is admittedly one of the finest public courses on the Pacific Coast, was built recently by the Canadian Pacific

REUNION DINNER OF CANADIANS IS HELD IN LONDON

London.—Premier Mackenzie King attended the reunion dinner held by ex-members of the Canadian expeditionary force now resident in London. Owing to a previous engagement, however, the Prime Minister was unable to stay throughout the evening.

The dinner, which is held annually on or about Armistice night, was presided over by Major-General Garnet Hughes. Among those attending were Viscount Byng of Vimy, Major-General J. H. Macbride, chief of the Canadian general staff, General Sir George Milne, chief of the Imperial general staff, General Sir Ian Hamilton and Sir Hamar Greenwood.

Viscount Byng was accorded a victorious reception when he rose to speak. "I have spent five years of wonderful experience and happiness in the Dominion," the viscount said, "I have always preached the same doctrine and I preach it to you as one who has a passionate affection for you and your comrades. I have preached the word 'unity'."

"On the ninth of April, 1917, I saw Canadian flags. I saw men from these fine old battalions of British Columbia shaking hands with men from these fine old battalions of New Scotland on top of Vimy Ridge, unquered and unconquerable, telling each other that every man was as good as another. That ideal of our corps was a fine ideal worth cherishing."

Viscount Byng concluded with a plea for the setting aside of personal ambition and individualism and working for the same big purpose as you worked with men in those far years."

Choose Canadian Stock

California Rancher Buys Fifteen Head Owned by Prince of Wales

Calgary.—Fifteen head of short-horn cattle owned by the Prince of Wales at his ranch near High River, Alberta, have been purchased by Sheldon and Caruthers, owners of the Kirkwood farm, one of the show ranches of Calgary. This announcement was made by Prof. W. J. Carthy, manager of the Prince's ranch.

Before deciding on the cattle at the ranch of the Prince of Wales, buyers for the best California ranch visited many herds in the United States. The shipment consists of nine cows and six and eight yearling bulls, one being a champion at Western fairs this summer.

Russian Citizens Eating Garbage

Providence, R.I.—More than 200,000 people are living like scavenger dogs in the streets of Moscow, Russia, according to William W. Patterson, of Penman, N.Y., who returned to the U.S. today from Russia and the Near East. These youths eke out an existence by feeding from garbage cans and by sleeping under wagons and in the streets, according to Mr. Patterson.

Between the Canadian and British governments and the Atlantic transportation companies for the continuance of the £3 (\$41.55) fare for emigrants from Great Britain to Canada is finally concluded. It is not likely that any radical extensions will be made in the classification of the emigrants coming under its provisions.

The existing agreement which will expire at the end of this year is limited roughly to bona fide intending farm workers and domestic servants. It is understood representations have been made that Canada should extend the scope of the agreement to include certain classes of industrial workers, but it is unlikely such a course will be followed.

The position taken by Canada's representative here, it is understood, is that an extension of the agreement to include industrial workers would probably result in the migration of such workers beyond the Dominion's power of absorption.

While the precise terms of the new agreement are unlikely to vary much from the existing agreement with regard to classifications, it is hoped additional arrangements will be made under which the migration of intending farm workers will be encouraged.

The British Government has training farms for intending farm worker emigrants. These farms take men of no agricultural experience and train them for farm work. The original course of six months has been found too long and expensive for the handling of any considerable number of men and has been reduced to four months.

It is expected by this and other modifications in the training course that the migration of bona fide intending farm workers to Canada will be stimulated.

Alberta Seed Survey

Will Ascertain Amount of Damage to Seed Caused by Wet Weather

Calgary.—Survey of the entire province has been undertaken by the Dominion seed branch to ascertain the amount of damage the crop has suffered and the quantity of seed that would be available for spring sowing, according to G. M. Stewart, district inspector. A preliminary report will be issued soon. Although there are prominent grain men in Calgary who view the threatened shortage of seed with alarm, it is generally admitted that no definite measure of the quantities available can be made until the crop begins to move more freely. It is admitted that many of the tests for oats for germination have given poor results but it is hoped that these samples do not represent the average condition of the crop. The position in many districts is believed to be bad owing to crop damage by the rains.

May Settle In West

Countess Karolyi, Hungarian Noblewoman Is Banned From U.S.

Montreal.—Countess Karolyi, wife of Hungary's war time prime minister, who is now in Montreal, will not visit the U.S. she was denied her visa to enter the United States, the told newspapermen here. The Countess has dropped her suit now pending in the United States courts against the department of state, asking cause why a visa to enter was denied her. "Secretary of State Kellogg has said that he does not want me or mine. We shall never go where we are not wanted," said the Countess.

Countess Karolyi left for Ottawa to interview Government authorities in connection with farms in Western Canada. It is believed that the Karolyis will settle in one of Canada's three prairie provinces.

Committee Struggling With Locarno Treaty

Problem Is Delicate and Little Progress Being Made

London.—The fiscal committee of the Imperial conference headed by Hon. Ernest Lapointe is still struggling with the Locarno treaty, trying to draft a memorandum on the subject for future guidance in such cases, but apparently has made little progress because of the delicacy of the problem and the falling among the delegates to agree upon the exact wording of the memorandum.

It can be taken for granted, however, that as a result of the delegates' deliberations the British government will be far more circumspect in signing any future treaty like Locarno although they feel that the result of getting Germany into the League satisfies the treaty entirely.

TO ENCOURAGE IMMIGRATION OF FARM WORKERS

London.—When the new agreement between the Canadian and British governments and the Atlantic transportation companies for the continuance of the £3 (\$41.55) fare for emigrants from Great Britain to Canada is finally concluded it is not likely that any radical extensions will be made in the classification of the emigrants coming under its provisions.

The existing agreement which will expire at the end of this year is limited roughly to bona fide intending farm workers and domestic servants. It is understood representations have been made that Canada should extend the scope of the agreement to include certain classes of industrial workers, but it is unlikely such a course will be followed.

The position taken by Canada's representative here, it is understood, is that an extension of the agreement to include industrial workers would probably result in the migration of such workers beyond the Dominion's power of absorption.

While the precise terms of the new agreement are unlikely to vary much from the existing agreement with regard to classifications, it is hoped additional arrangements will be made under which the migration of intending farm workers will be encouraged.

The British Government has training farms for intending farm worker emigrants. These farms take men of no agricultural experience and train them for farm work. The original course of six months has been found too long and expensive for the handling of any considerable number of men and has been reduced to four months.

It is expected by this and other modifications in the training course that the migration of bona fide intending farm workers to Canada will be stimulated.

ADVANCE TO BE MADE IN OCEAN FREIGHT RATES

Montreal.—Ocean freight rate advances have been announced by the Canadian trans-Atlantic conference for the carriage of conference commodities to the continent from Canada, these to take effect from December 1 next. Decision has also been taken to absorb the 15 per cent surcharge on the transportation of conference commodities to United Kingdom ports, which has been in effect since September 23 last, and to enforce a new series of rates, which will become effective on January 1. These rates to the continent and to the United Kingdom will run till the end of April.

The increases in freight rates will range from 15 per cent upwards, but it was made clear that such advances will be from the rates in force before September 23 and not from those now ruling. In the case of produce moving to the United Kingdom ports, it was made clear that such advances are only those included in the list dealt with under the jurisdiction of the conference. Cattle, flour and grain are not affected by the new rates, these coming under the purview of the separate lists.

Similar advances have been made by the North Atlantic Continent and South Atlantic United Kingdom conferences. Reasons for the rate increases are attributed directly to the prolongation of the British coal strike, which has resulted in an increase of operating costs together with a decrease in available cargo carrying capacity.

May Eventually Send Envoy To Canada

But U.S. Will Depend on Consular Service for Present

Washington.—The United States Government not only has advised the Canadian Government through the British Embassy that Hon. Vincent Massey, the new Canadian representative to the United States, is acceptable, but there is a feeling of much satisfaction in official and congressional circles because Canada will be directly represented here.

It is expected the new arrangement will result in facilitating the handling of matters that directly concern the two governments.

When the United States is going to do about sending a representative to Ottawa is undecided. Not long ago President Coolidge let it be known that he regarded the American consular representation in Canada, as meeting the situation. In order to send a minister or other diplomatic representative, legislation would be likely this Government will depend on its consular service for the present. Congress eventually will authorize the sending to Canada of a diplomatic representative of a rank to correspond with Mr. Massey's.

Rock Slide Causes Alarm

Prince Rupert, B.C.—The enormous rock crest of Glacier Mountain near Alice Arm in the Portland Canal district, reveals a new and alarming crack, which has caused the people in the territory think an earthquake had occurred, according to word received here. The shock could be felt for miles around and caused dikes to fall from shelves in a number of places.

Wants to Share With Britain

London.—It is reported here that Italy had demanded a share in the Russian oil monopoly sought by British finance in return for a loan to the Soviet government. Italy proposes to share in the loan and also in the reciprocal benefits obtained from Russia, or else issue an additional loan and take the monopoly on Russian oil sales to the world trade outside the British empire.

Bernard Shaw Surprised

London.—"It is a great mystery to me," said George Bernard Shaw, when asked for an expression on the award to him of the 1925 Nobel prize for literature.

"I suppose it is given me because I wrote nothing at all this year," he added with a smile.

He has not yet been officially advised of the prize.

Final Scene In Royal Wedding

Brussels.—Princess Astrid of Sweden and Crown Prince Leopold of Belgium were married in a ceremony in the Roman Catholic cathedral in the Cathedral of St. Gudula Nov. 10 and left on their honeymoon for a destination which has been kept strictly secret.

A Question of Manners.

Probably there has never been a royal progress in all history anything near like that which Queen Marie of Roumania has made through the United States. Wherever she has gone, the Queen has been followed by tuff hunters and sensation mongers and taste-tasting snobs and if some of the American newspapers have not succeeded in making the whole business preeminently ridiculous, it has not been for want of trying. Some day, and before very long, most likely, we shall hear at first hand what Queen Marie has been thinking about in the midst of the fuss and the noisy unseemliness of certain of the newspaper herds. In the meantime, it appears, something natural and invincible in the Queen, something to the manner born, rises serene and unquenchable above the unparalleled vulgarity which has bespattered the royal visit to the world's most exigent and best-advertised democracy.

We may depend upon it that there will be sequel; to Queen Marie's strange American adventure, political and otherwise, and in Europe no less than in the United States. We may surmise, too, that if she had to make the decision again, the Queen would think twice before she committed her royal dignity to the tender mercies of that irresponsible journalism which counts the hour lost which can not

be made to supply its appropriate scandal.

For the moment, we are entitled to make the most of two consolatory reflections. The first is that we in Canada have not forgotten the obligations of hospitality in the matter of the Queen's visit. The second is that the American people do not deserve the libel put upon them by the noisy section of their press. It is because we think the Americans are essentially good-natured and decent, that we believe they will prefer to recall what they themselves saw and liked in this very human Queen, rather than the grotesque caricature of Roumanian royalty exhibited by their scandal sheets.

No Need To Hurry.

Geologists are starting a series of tests to determine whether or not the North American continent is sinking. Many geologists believe that this continent is subsiding at the rate of one to two feet a century, and as a test, tide gauges are to be located along the coasts for several years. As Coleman is over 4,000 feet above sea level, local residents have no need to rush their packing up to move.

Alberta Municipalities Could Use Some.

Manitoba has three and three quarter millions of profit from the liquor business in the past year, and all but \$700,000 of it will be distributed among the municipalities of the province.

Now that the Alberta government has made expenditure balance revenue, it is not about time a portion of Alberta's liquor profits were turned over to the municipalities?

Military Training In Russian Schools.

Quite recently Coleman was visited by a well known lecturer and during the course of his discourse on Russia he repeatedly scored the

Canadian and American school authorities because the children are taught to "left," "right" when marching into school, claiming that it was a form of militarism, absolutely taboo in Russia. In this connection it is rather startling to read the following news item appearing last week in the daily press:—

"MOSCOW, Nov. 10.—Military training for all university students, both men and women, has been ordered by the commissariat of war. All students will be required to take 180 hours instruction in military science during their regular four-year course."

WHAT OTHER EDITOR'S SAY

The imperial conference is working in London behind a veil of secrecy. Too much should not be expected from such gatherings, as this is neither a legislative nor executive body, what the name implies—a conference. It has been stated that nothing can be expected from this gathering but pious resolutions. But pious resolutions are good, even if they are only half carried out.—Nanton News.

Understanding

The greatest need of the present day is understanding. Without it all things are open to suspicion and distrust, and, when mind and action are influenced by these factors, trouble not only begins but continues.

The basis of understanding is knowledge, and knowledge rests upon facts and conditions. When a subject comes up for discussion, either in conversation or debate, the man who understands the question and is capable of viewing it from all angles is the man in the best position to speak. He who frankly admits his lack of knowledge of the particular question is indeed a wise man, and being wise, will study into the question and gain knowledge of it so that another time he will

not be found lacking.

Nor is it wise to jump to conclusions, because things are not always what they seem. Train yourself to think; teach your mind to look for and recognize reason. One great difficulty of the present day, the world over, is the lack of balanced thought by a vast number of people. Anything you intend to do, and whatever you do, should have its thought beforehand, for the result of your action affects not only yourself but others, and we all owe it to those others to be considerate of them.—Powell River Digest.

WINNIPEG CANADA

Films Depicting Canadian Scenes Are Used To Good Advantage In Advertising This Country Abroad

Not the least important function of the Canadian Government has been to correct, both at home and abroad, the erroneous impressions gained and sometimes spread by poets, novelists, dramatists and journalists, and to present the true Canada to the world. This has been done by the use of films, and the results have been most successful.

In 1917 the Canadian Government realized the instructive value of the cinematograph camera and decided to go into the motion picture business. There then came into being as a branch of the Trade and Commerce Department, the official Motion Picture Bureau, which has since rendered good service by depicting to the world, more clearly than in words, the wealth, opportunity and scenic beauty presented to the intending immigrant. Like the prophet of old, the work of the bureau is less known and appreciated in Canada possibly than any one of a score of countries.

On the principle that people do not appreciate fully that which is given them free of charge, the bureau has conducted its campaign abroad in direct competition with the commercial cinematograph film, and has done so with great success. Canadian films have been accepted by foreign exhibitors on their own merit; in Great Britain particularly there is a steady demand for them. Not only have they attracted immigrants, but in several instances they have attracted valuable trade.

For instance a film on road-making in Canada was being shown some years ago in South Africa when a member of the audience was so impressed by the efficiency of Canadian road-making machinery that he asked the bureau to put him in touch with the makers, and a substantial order followed.

Practically all the departments of the Dominion Government in Ottawa have at one time or another availed themselves of the bureau, on which increasingly heavy calls are being made.

The tremendous value of the film as a medium of national propaganda is being realized by other nations of the world, which are following the Canadian example. At the present time 16 nations, headed by Great Britain, are trying to break the domination of the film-world held by the United States, and the matter is of such importance as to merit discussion at the Imperial conference in London. Perhaps Imperial action will be taken on a lead set by Canada nearly a decade ago.

Studies Age Of Fish

Major Fowler Says Some Live More Than Fifty Years

How long do fish live? Major F. S. Fowler, in a lecture before the London Zoological Society, gave some interesting data on a special study he had conducted on this subject.

An electric eel in the London Zoo, it was reported, lived twelve years. A European catfish in the private aquarium of the Duke of Bedford is 50 years old and shows little indication of weakness.

Other fish age figures given by the Major were: Carp, 15 years; goldfish, 10 years; herring, 1 year; salmon, 5 years; bull trout, 14 years; tree frog, 14 years; female Spanish newt, 18 years; and giant salamander, 62 years.

Advocate Long Hair For Men

That long-haired men are the natural complement of bobbed-haired women, is the not dissatisfied opinion of Parisian barbers. Singling and bobbing have come to stay, and hair artists no longer manufacturing women's crowning glory into children and topees are trying to persuade the sterner sex to allow their hair to grow.

Canadian Potato Crop

The Canadian potato crop is still estimated to be 42,379,000 cwt., compared with 42,379,000 in 1925. This is made up of Prince Edward Island 3,400,000 cwt., Nova Scotia 3,350,000, New Brunswick 4,221,000, Quebec 13,769,000, Ontario 8,914,000, Manitoba 2,248,000, Saskatchewan 3,015,000, Alberta 2,764,000 and British Columbia 1,328,000.

W. N. 1. 1025

Creates Demand For Goods

Advertising Is Only Way to Keep People Interested

The finest goods in the world if merely placed on the merchant's shelves will stay there and gather dust. If, however, the buying public is informed that they are on the shelves then the buying public will see to it that they are removed.

The only way the buying public can be informed that these finest goods in the world are open to its demand is by advertising. It is the shortest and the most direct avenue of communication between the producer and the consumer. It provides the former with means of assuring himself of the necessary "turn over" it directs the latter in his search for that which he needs because it is a means of introducing to both necessities and luxuries and through that introduction creates a demand. In the words of President Coolidge, advertising "ministers to the true development of trade."

That this is recognized as a fact by American business is proved by the vast increase in the amount of space used by advertisers. The art of the advertising expert supplements the energy and the ingenuity of the manufacturer and the enterprise of the merchant until the advertising columns of the leading newspapers are being accepted by foreign exhibitors on their own merit; in Great Britain particularly there is a steady demand for them. Not only have they attracted immigrants, but in several instances they have attracted valuable trade.

Played The Game

Small Girl Would Not Oust To Win Coveted Prize

An odd little story is making the rounds of Canadian papers. It tells of a few girls in the first grade who, with great care and much hard labor, made a few flowers for the school fair. One of them came an eager and a slipping air a day or so before the exhibit was to be made and the flowers were blighted.

Reading the best disappointment to the little girl here she suggested that a few asterisks from her own stock should be added to the somewhat wilted flowers which the child was bravely carrying away as part of her work for the fair. "But that wouldn't be playing fair," responded the child and went off with her own flowers conscious that she had lost the coveted prize before she reached the much anticipated show.

This is one of those stories told to point a moral and adorn a tale, and will be appreciated by those who have to do with rules, and exhibitions and shows, big and little, the world over.

Guarantees His Houses

Canadian Architect Invents New System for Concrete Buildings

The city council of Norwich, England, has ordered 200 houses to be built of concrete under a new system, on a remarkable guarantee from the inventor, D. G. Underwood, a Canadian architect.

Mr. Underwood guaranteed: To lift a house built on his system two feet and drop it to the ground without a crack.

To lift and remove it bodily any reasonable distance after thirty days. Mr. Underwood's houses are built of ingeniously shaped blocks. Two five-ton motor lorries harnessed to a pair of these blocks were unable to draw them apart.

Beet Sugar Plant For Winnipeg

A party of from 100 to 200 Winnipeg business men and farmers was organized by the Mayor to go down for the opening of the new sugar beet factory at Grand Forks and see the agricultural and manufacturing end of the beet sugar industry. Experiments in the production of sugar beets in Manitoba have been progressing satisfactorily and the hope is entertained that by next fall a beet sugar plant will be established in Winnipeg.

Alberta Homesteads

Nearly 200,000 acres of homestead land have been taken up by new settlers in the Province of Alberta. The city council of Norwich, England, has ordered 200 houses to be built of concrete under a new system, on a remarkable guarantee from the inventor, D. G. Underwood, a Canadian architect.

More than 2,000,000 persons annually travel up and down the highways of the Pacific Coast, making for themselves a picture of the westward-looking pioneers, says "Here and There."

Alberta Has Bumper Crop

Second Largest Crop in History of the Province

Final compilations are expected to show that the average yield of wheat throughout the Province of Alberta this year will be 19 bushels per acre on 6,375,000 acres, giving a total yield of 119,235,000 bushels. This is the second largest crop of wheat in the history of the province. The largest crop was 144,000,000 bushels in 1922.

The wheat yield this year in the three Prairie Provinces is now expected to reach about 350,000,000 bushels, Manitoba estimates a crop of 45,000,000 bushels and Saskatchewan, 208,000,000 to 225,000,000 bushels. Last year the value of the Western wheat crop was \$425,529,000 from 352,202,000 bushels.

The value has yet to be computed, but as wheat has risen sharply in the past few weeks by 12 cents or more, until it has recently reached around \$1.45 at Winnipeg, the prospects for financial reward appear excellent. The return from the wheat crop in the three Prairie Provinces in recent years has been as follows: 1923, \$295,150,000; 1924, \$395,202,000; 1925, \$425,529,000.

Saskatchewan Dairy Output

Estimated Output for This Year Placed at 18,000,000 lbs.

So famous has the Province of Saskatchewan become as a great grain producing province that its importance as a dairy country is apt to be lost sight of. A statement recently issued by the Dairy Commissioner of the Provincial Department gives some indication of how rapidly dairy production is growing. The statement reads: "Creamery butter production in Saskatchewan in August of this year amounted to 2,287,232 pounds, bringing the total production for the eighth month of the year to 18,000,000 pounds, an increase of 1,577,418 pounds or 16 per cent, compared with the record for the corresponding period of 1925."

It is estimated that the output of this year will reach 18,000,000 pounds.

British Boy Immigrants

An annual grant equivalent to the grant given by the Dominion Government has been given to the British Immigration and Colonization Association by the Overseas Settlement Committee, a recent cable advised. This is expected to considerably expand the Association's work of setting British boys between the ages of 14 and 18 on Canadian farms. The society received its charter four years ago about 500 boys per year have been so moved and settled.

Manitoba Pulp Mill

Paper making will commence this month at Port Alexander at the plant of the Manitoba Pulp and Paper Company. There will be two trains weekly from the plant to Winnipeg, transporting the finished product, much of which is expected to be sent across the line. The plant is modern in every way and will employ a staff of 300, while 400 men will be working in getting out logs.

Trans-Atlantic Champion

W. A. Williams, of Montreal, claims to be the undisputed champion for trans-Atlantic journeys. He has to his credit 117 trips between America and Europe and is confident that few persons, with the exception perhaps of a few old sea captains, can claim an equal record. Williams is a commercial buyer and in the employ of outstanding Canadian business houses, has made his numerous journeys across the Atlantic. Considering that Mr. Williams' first trips were made

Boys' And Girls' Swine Club

Hardy Boys Win Championship For C.P.R. Towns in Alberta

Walter Kobitsch and George Matthews, of Hardisty, won the championship this year in the Boys' and Girls' Swine Club competitions for towns on Canadian Pacific lines in Alberta, thus securing for their town for a second consecutive year, the honor of representation at the Boys' and Girls' Swine Club competitions for the year at Toronto. Their score was 79.5, ranking third in the whole province in railway competitions, where Hardisty ranked seventh on its first appearance. Bentley took second, and Nodewick third in the C.P.R. contest. Hardisty took sixth place in car lot competition.

Geo. Fox, superintendent of Edmonton division, presented Hardisty with the trophy at the Edmonton Exhibition association dinner. Each member of the team, besides getting the trip to Toronto as guests of the C.P.R., receive a medal.

Scheme Sounds Reasonable

Eastern Farmers Working Out Land Might Come to Prairies

A scheme to stop the exodus of Canadian citizens to the United States and at the same time increase the farming population of the West and other more recently opened sections of the Eastern provinces, was suggested by Rev. Abbe Philippe Casgrain, director of the Catholic Immigration Association of Canada, in an interview on the subject at Quebec. The basis of Abbe Casgrain's scheme is that Canadian farmers who are unable to eke out a fair living on their old, worn-out or boulder-strewn farms, should be given the opportunity by the Federal Government to settle in Western Canada. A plan along the lines of the Soldiers' and Settlers' scheme is suggested by Abbe Casgrain for the transfer of Eastern farmers to Western Canada.

Bones Of Birds Are Hollow

Makes Them Lighter And Stronger Against Strain

The bones of all flying birds are said to be hollow and filled with air, thus showing that nature knew what it was about when it designed them for the air. The plan, as many pilots will confirm, makes for not only lightness, but for the greatest strength. A solid bone besides being heavier, would be less strong against strain such as a flying fowl is put to.

Was Chinese Invention.

It is singular that the earliest instrument for determining the shock direction of an earthquake was made in China in the year 132 B.C. It was a hollow brass rod with a pendulum free to move in all directions. Many devices have been invented since then, but the order of the day is the self-registering instrument.

In "Reotman" the way to spell it. The Wall Street Journal is not taking any chances, for it often Scotchman and Scotchman in the course of one short article.

It is interesting to note that inquiries relative to Canada's present and prospective fur resources and especially the raising of beaver in captivity are coming, not alone from Canada, but from the United States and foreign countries including both Europe and Asia.

Canada's Telegraph Bill. Canada's telegraph bill was \$11,529,323 in 1925, according to the Dominion Bureau of Statistics. A total of 11,436,484 telegrams were transmitted during the year, or more than one for every man, woman and child in the Dominion. Messages received from the United States numbered 2,747,324. Cablegrams despatched to England and continental Europe totalled 924,058, while those received in return amounted to 5,179,833.

Proposed Timber Merger. A giant merger of timber interests in British Columbia, Washington and Oregon, involving \$200,000,000 of capital, is likely to eventuate from plans now under way, according to The Daily Province. Several of the British Columbia mills—a quarter of a third of the whole—are said to be favorably inclined to the amalgamation.

Big Apple Crop In B.C. British Columbia's apple crop is 750,000 boxes ahead of last year's production, according to W. E. Robertson, provincial horticulturist. The total yield is placed at 3,835,000 boxes as compared with 3,085,000 last year. This year's total is the largest in the history of the province.

The Metropolitan (London) Water Board supplies water to a population larger than that of Canada, and the same, placed end to end, would cover the distance from London to New York and back.

Utilize Hospital Elevator. Since the Saskatchewan Pool acquired the facilities of the Saskatchewan Co-operative Elevator Company, it has decided to use the Davidson and Smith terminal elevator at Port Arthur, with a capacity of 1,700 bushels as a hospital elevator.

Records taken over 36 years show that the greatest number of fatal influenza cases occur about the ninth month of the year, and the fewest about the thirty-first or thirty-second week.

Utilization Of Waste Lands For Development Of Fur Farming To Meet The Demand For Pelts

Take Big Yearly Toll

Million Workers Annually Disabled By Auto and Industrial Accidents

The hazard of accidents in America were pictured by a score of speakers before sessions of the National Safety Council, at Detroit.

Dr. Harry E. Mock, Chicago, told the council that medical science has succeeded in cutting down the number of disease victims, but that hospitals are being filled with victims of industrial and automobile accidents.

More than a million persons are being cast annually upon the scrap heap and labeled "permanently disabled," he said. A rehabilitation program by which the disabled could become producers instead of dependents was proposed.

Dr. Wendell C. Phillips addressed a full education of the public in disease prevention, and said that huge sums of money, now being used to care for hospital inmates, might well be used toward preventing disease.

Heavy Yield Of Grain

Reports of Big Yields in Different Parts of Alberta

Some heavy yields of grain are being reported throughout Alberta. At Claresholm, it is reported by the Lethbridge Herald that G. A. Walker, M.L.A., has threshed 55 bushels an acre from 46 acres of wheat. A yield of 12½ bushels per acre is reported from 200 acres on the Thompson Company farm at Spring Coulee, this being second generation Marquis Turkey Red winter wheat on the farm of Armour and Brimble. In the ready-made irrigated district near Lethbridge, yielded 72 bushels to the acre. One irrigated farm near Taber reports 51 bushels to the acre. At Champion, a yield of 45½ bushels on one farm was reported, with 100 bushels of oats to the acre.

New Sealplane

Britain's Newest Sealplane is Called "Flying Bungalow"

Great Britain's newest sealplane has been nicknamed "the flying bungalow." This is because of its cooking and sleeping accommodations. The plane, carrying a crew of five, and driven by three high-powered engines, has been designed to carry out experiments in connection with opening up a flying service to Australia and New Zealand. The landing gear is slung in a part of the cabin, which in the day time is the living room. The galley is aft, and 18 to 22 passengers may be carried.

Oriental Industry Impaired

Storms in China and Japan Hurt Gold Fish Production

Owing to earthquakes, typhoons and heat storms, the gold fish production in China and Japan has been seriously impaired recently. These fish are grown in specially constructed lakes, which were flooded during the storms, with the result that many of the fish swam about in the streets and died from the hard life or lack of proper food. These goldfish were shipped in consignments of 40,000 to 50,000 at a time and the loss to one dealer alone was placed at \$60,000 this year.

Cousin of Prince a Dressmaker

The Prince of Wales now boasts a cousin who is a successful Berkeley street dressmaker. His is George Pitts George, grandson of the Duke of Cambridge. In partnership with Miss Rose Taylor, he last year made £3,000. "This year we are going even better, which is not bad, considering that we started with a few hundred pounds as capital."

Has Automatic Phones

To automatic control, Edinburgh's telephone system has been changed over. The actual changeover did not take more than five minutes, and little inconvenience was caused. Between 1,000 and 12,000 lines, involving 20,000 extensions, were dealt with. Operations in the suburbs and Leith are to be commenced later in the season.

Utilize Hospital Elevator

Since the Saskatchewan Pool acquired the facilities of the Saskatchewan Co-operative Elevator Company, it has decided to use the Davidson and Smith terminal elevator at Port Arthur, with a capacity of 1,700 bushels as a hospital elevator.

Records taken over 36 years show that the greatest number of fatal influenza cases occur about the ninth month of the year, and the fewest about the thirty-first or thirty-second week.

Prevent Grippe—build resistance with SCOTT'S EMULSION

BABY'S OWN SOAP

Thousands of Mothers prefer it to others.

WORLD HAPPENINGS BRIEFLY TOLD

A socialist daily newspaper, with a capital of 2,000,000 francs (\$60,000), will be published in Paris at the beginning of 1927.

The Canadian Pacific Railway enriched the treasury of the city of Quebec by the sum of \$219,652.28, being its contribution in municipal taxes for the year 1926-27.

Parliament will meet early in December. This was the intention made by Hon. J. A. Robt. acting prime minister, at a meeting of the cabinet council.

Special despatches from Panama say the military authorities in that state have ordered the arrest of all Roman Catholic priests in Panama City, Mexico, on suspicion they are in cahoots with the revolution.

Ninety per cent of registered ships in the Bahamas has been hit by three successive hurricanes, since July, official reports indicate. Nassau, in years past filled at this season with a large army of sailors, is almost bare.

Attempts against the life of Mussolini or any member of the royal family will be punishable by death hereafter. The Chamber of Deputies approved this law, which Mussolini himself consented after the instant demands of the Fascist party.

The first of a fleet of four speed torpedo boats has been launched by the German Navy, conforming in size and armament to the restrictions of the Versailles treaty. The boats will be preferred to such an extent that they can be regarded as a formidable defensive force.

The British coal tip-up and the subsequent showing down of other industries have resulted in losses in production to Great Britain of between £250,000,000 and £300,000,000, Sir Philip Cunliffe-Latler, president of the board of trade, estimated in the House of Commons.

Mrs. W. P. Alloway a devoted charitable worker and wife of Manitoba's pioneer banker, died at her home in Winnipeg recently. Mrs. Alloway, the daughter of James MacLaren, pioneer businessman of the Ottawa Valley, a resident of Buckingham, Que., and founder of the Bank of Ottawa, had been a resident of Winnipeg for 45 years.

Useful in Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of chills in the ankles, or sprain be sustained, nothing could be better at a dressing or lotion.

Teaches Snake to Drill Miss Nora Williams, of Powell Co., Kentucky, is a snake catcher by vocation, and she makes a good living out of the job. She is only twenty-three years old, and she has caught and sold some rare specimens to collectors. She has, at her home, six snakes which she has taught to crawl in drill formation.

French Plan Air Service Appropriation of 600,000,000 francs to establish a trans-Atlantic aviation line between Dakar, in the French colony of Senegal, and Buenos Aires, the Argentine capital, was announced by the French finance ministry.

PAIN.

Minard's penetrates, soothes, and relieves pain. Splendid for stiff joints, sore muscles.

W. N. U. 1655

Plan For Celebration

King and Queen to be invited to Attend Sixtieth Anniversary of Confederation

Plans for the 60th anniversary of Confederation are maturing. The Association of Canadian Clubs, through its executive committee, has put forward a series of proposals:

1.—That Their Majesties, the King and Queen, be invited to visit Canada during jubilee week of July 1.

2.—That the governments of Great Britain, the United States, the Republic of France, the Indian Empire, the Irish Free State, and the British Dominions be invited to send representatives.

3.—That there should be an issue of commemorative postage stamps.

4.—That motion pictures of the events leading up to Confederation be made by the government motion picture bureau.

5.—That there be a national organization to arrange the celebration, the chairman to be appointed by or from the federal cabinet.

Incidentally, it is proposed that a simultaneous salute be fired throughout Canada by electricity from Ottawa at noon on July 1, 1927, and that 10,000 beacons fire be lit from coast to coast in the evening of Dominion Day.

SUNDAY SCHOOL LESSON NOVEMBER 21

JOSHUA RENEWING THE COVENANT

Golden Text: Choose you this day whom ye will serve... Lesson: Joshua 24:15.

Devotional Reading: Psalm 107:1-9.

Explanations and Comments

1. Joshua Reminds the People of God's Faithful Throughout Their History... 135. Joshua assembled the people at Shechem, sending a special summons to everyone of authority, the elders, the heads of Israel, the judges, and the officers. He began his farewell sermon by seeking to stir their hearts with a recital of God's rare and help from the time of Abraham to that present moment when they were in possession of land on which they had not labored, of cities which they had not built, and the yards and oliveyards which they had not planted. He said in the form of a speech from Jehovah himself, thus stressing the fact that he and they were simply instruments of the divine will. "I give... I planted... I reaped... I gathered... I destroyed... I built... I sent... these recurring pronouns have been likened to the blows of a sledge-hammer, beating the one thought into the people's hearts. It was history seen by the eye of faith. "Oh that men would praise Jehovah for his lovingkindness, to the children of men!" (Psalm).

Individual and Smart

Can you imagine anything more becoming and more virtuous than this stunning frock? It will earn you many occasions and serve many purposes with style that the youthful woman will at once claim for her own. The skirt has clusters of side pleats in the front and back and is joined to a straight bodice having a high collar and long ornate sleeves. The bodice open at the neck, and a popular favor at the sides is seen to the dress at the low waistline. No, it is in sizes 16, 18 and 20 years. Size 18 years (26 bust) requires 2 1/2 yards; 20 years, 3 yards plus cost. Every woman's desire is to achieve that smart different appearance which draws favorable comment from the observing public. The design illustrated in our new Fashion Book are originated in the field of the style centre and will help you to acquire that much desired air of individuality. Price 10 cents the copy.

The trail that leads to HOME

The Cunard Anchor-Donaldson ocean highway will be the home trail for many Canadian citizens intent on spending Christmas with the home folks in the British Isles this Christmas.

Leaving Halifax December 12th and 13th respectively the two Christmas ships "Letitia" and "Antonia" are scheduled to arrive at the home ports three or four days before Christmas, the "Letitia" at Belfast, Liverpool and Glasgow, and the "Antonia" at Plymouth, Cherbourg and London.

Economic Importance Of The Farm

By C. W. Peterson

It is a fact, that Canada's agriculture looms up as the largest single factor in her economic life, with the farmers as the largest group of domestic consumers, consequently exercising a commanding influence upon the general business conditions of the country. One-third of all revenue freight carried by our railways originated on the farm and another third was doubtless represented in carrying commodities of all kinds, back to the farm, and the transportation to and from agricultural raw material. The farm not alone feeds the nation, but exports on such a scale that credits are available to balance our international obligations and create a favorable trade balance.

Besides the millions of farm workers directly engaged in producing, there are other millions earning their living by performing work connected with supplying the implements, tools, shoes, clothing etc. for the farmer, with the manufacture of raw material originating on the farm and the distribution and transportation of such commodities.

Who is bold enough to attempt correctly to estimate the economic importance of agriculture in Canada? It is perhaps well within the mark to assert that at least 80 per cent of Canada's rural population, in every walk of life, depends directly on the farm, directly or indirectly. These are imposing figures and should lead thinking men to speculate on the possible performance of Canadian agriculture in terms of national development, were we in that happy position where more than a mere fringe of our agricultural area was on a producing basis. If, for instance, we were producing on one-half, or even one-third of our available land instead of only one-sixth, granting a fair occupational balance, our present economic problems would vanish over night. The time is ripe for bringing such a situation about. We have the undeveloped natural resources, the markets are there, and we only need the manpower and the capital to complete the circle. And that is purely a matter of intelligent business organization.

Manitoba Tourist Trade

Winnipeg Tourist and Convention Bureau Has an Active Season

The Winnipeg Tourist and Convention Bureau registered a number equal to 28 per cent of all the motor cars that crossed the whole of the Manitoba border from the United States, and remained for more than twenty-four hours, up to October 1st, 1926. This includes Emerson, Gretna, Killarney, Carleton Place, Crystal City, Melita, Shawville, Emerson, Pelly, Virdis, Hackett, and all parts of the province. More than 15,000 people came across the border of Manitoba from the United States and 75,000 of them stayed less than a day, while 26,688 came in for a period ranging from two up to thirty days.

A day's stay would mean over \$2,000,000 left in our country based on an expenditure of \$18.75 per capita per day. A two day's stay would mean an expenditure of over \$3,000,000, while the usual average of 3 1/2 days, which is accepted by all members of the I.A.C.C. as being correct, would mean a gross expenditure of over \$5,000,000 in Manitoba during the past season.

For the year 1926 twenty-four conventions were held in Winnipeg with an attendance of 23,600. The feature of the 1927 season, in which sixty conventions have already been booked, will be the side-trip of the Minnesota State Elks Association, who will visit Winnipeg for two days in the third week in June, 1927. Indications point to 1928 being a "Banner" year for conventions. The Norse Association of Canada, seven thousand strong and the Norwegian Sluggers of America, one thousand strong, already have selected Winnipeg as well as many others, ranging in attendance from 200 to 3,000. Winnipeg has also secured the D.O.K.K. Convention for 1929, attend about 25,000.

Physicians use Minard's Liniment.

A Triple Bond

Among the English speaking peoples the strongest bond uniting them is said to be that of the three L's—Literature, Law, Language. Some students put language first and literature last, but others maintain that the literature is what has made the language foremost in the triple bond.

What's the use of washing my hands before I go to school, mother?" said the small boy. "I'm not one of those who are always righting them."

The metal pillbox has a lot of bright prospects.

Diamond Jubilee Celebration July 1, 1927, Has Caught On

The proposals made by the Orillia Diamond Jubilee Committee for an adequate celebration of the sixtieth anniversary of Confederation next year, have evoked a great deal of enthusiasm throughout the Dominion. Upwards of one hundred favorable replies to the circular sent out by the committee have been received by the Secretary Mr. T. G. King. These come from Charlotte-town and Halifax on the East, to Vancouver, Prince Rupert and the Yukon on the West. Further letters are being received every day.

It will be recalled that the movement had its genesis in an address by Mr. C. H. Hale, to the Orillia Kiwanis Club last July. His suggestion that advantage should be taken of the sixtieth anniversary of Confederation next year to stimulate the national spirit, and to impress upon the rising generation the significance of Dominion Day was well received and a strong local committee, representative of various public organizations, was formed to broadcast the idea. This committee arranged to send out a circular to public men and public bodies throughout the Dominion, asking their co-operation in getting the movement started. The circular embodied suggestions for the program, among the chief being:

1. A children's picnic in every community in the Dominion on July 1st.
2. Ten thousand beacon fires to be lit in every city, town and hamlet across Canada on the evening of Dominion Day.
3. A great national banquet at Ottawa, at which as many as possible of our leading public men should be gathered together.
4. Services of re-dedication and consecration on Sunday, July 3rd.
5. And, to cap all, and lend dignity and distinction to the celebration, that an invitation be sent to King George and Queen Mary to grace the occasion with their presence.

SUNSHINE AND SMILES

A young housewife attempted for the first time, to make a cake, with the usual result. Her husband was a valiant man and did his best to get through it, but without success, and eventually the remains of the cake were thrown in the duck pond. Shortly afterwards a little boy tapped at the door, and said: "Please missus, your ducks have sunk."

The visiting clergyman, addressing the little folks at the children's service, became impressive. "Only think, children," he said, "in Africa there are ten million square miles of territory without a single Sunday-school where boys and girls can spend their Sunday afternoons. Now, what should we all try to save up our money for?" The children, (unanimously): "To go to Africa."

Aggie: "While you asking papa for my hand I'll play something lively on the piano."
Billy: "I'd rather you didn't dearest. You know some people can't keep their feet still when they hear lively music."

An old kirk elder, on reaching home, appeared very disconsolate, and his wife asked what was wrong. "Oh," he replied, "I've told a lie."

"Well," she remarked, "that needna bother ye. Ye've told a lie many a time."
"Aye," he said, "but I've been found out this time."

When the world laughs at you, laugh back. It is just as funny as you are.

"I have made regular and frequent trips to Western Canada during the past ten years, and I can safely say that at no time have I seen greater progress or more confidence in the future than was observable on the trip which the directors have just completed."—E. W. Beatty, Chairman and President, Canadian Pacific Railway.

Be thankful that you don't get what you really deserve.
Bottling up your wrath is a corking good thing.
